Incorporating: National Certificate in Travel & Tourism Core Skills Level 3 ››››››››››› National Certificate in Travel Level 3 ››››››››› Certificate in Cabin Crew Preparation

"The training and support the College provides is outstanding - from Induction to Graduation. The course provided me with a great insight into Travel and Tourism and ITC helped me with job applications, and ultimately put me forward for this job." **TANYA OPENSHAW**

COURSE OVERVIEW

- Students are introduced to business computing via globally recognised computing qualifications, including Microsoft MOS.
- This 24 week (6 month) full time course is an excellent introduction into the Airline, Travel or Tourism industries.
- The course includes high levels of practical activities and a full programme of field visits, guest speakers, and industry participation events.
- The curriculum includes essential units in domestic travel, fares & ticketing, New Zealand destinational geography, and valuable communication and customer handling skills customised for the travel and tourism industries.
- The inclusion of cross-training on two computer reservations systems makes this an ideal course for careers within travel agencies, airlines or airport check-in.
- A Flight Attending workshop is included within this course, and students interested in pursuing a career as a flight attendant may also study towards the Cabin Crew Certificate through the Cabin Crew Direct online learning system.
