

ITC Virtual Units

We have 4 unit options designed for year 12 & 13 students looking for additional NCEA level 3 credits. These units are diverse and can be used for all areas of school life – sports teams, school leaders, groups, clubs or students on work placements. The answers to these assessments can be based on everyday situations such as home, school, work or sports team.

Communication Events Unit 11097 – 3 credits, level 3 – \$60+GST
Communicating has never been so easy when you understand the individual components and importance of communicating effectively. This unit will not only discuss the delivery of a message but how vital it is to respond correctly.

Communications Unit 9694 – 4 credits, level 3 – \$80+GST
It is important to understand the cycle of communication and the barriers that exist when speaking to others. In a professional or personal circumstance it is the responsibility for both the person speaking and the person receiving the message. By knowing these skills this will make you a better communicator in the workplace and in your own personal life.

Teams & Team Leadership Unit 27563 – 4 credits, level 3 – \$80+GST
To be successful sometimes we require help and support from others. Being a part of a team and running a team efficiently will not only make you successful in business or in your personal life but will also help you work efficiently and increase overall performance in your personal life or in work.

Marketing Unit 2925 – 8 credits, level 3 – \$160+GST
Explore the competitive market and research companies to find out how they become an expert in their product or service. This unit will give you the skills to research organisations that compete with one another and find out more about what makes them better than the others in their line of work. Get creative and come up with exciting new ways for these companies to market their business.
