

ESTHER JOHNSTON

SCHOOLS CO-ORDINATOR

I have always been an admin person at heart, starting in a law office, then moving into the non-profit sector and later the head office of a FMCG company. I took a couple of years away from work to raise my two daughters.

When ITC advertised a part-time, mostly remote role in the Schools Team, it felt like the perfect opportunity to return to work while still being present for my family. And 11 years later I am still here part time managing communication between Gateway and Careers Departments, booking short courses, processing resource orders, invoicing and supporting the wider coordination needs of the Schools Team.

This is my first role in the Travel & Tourism Industry, but I have always loved travelling and exploring new destinations. I have been privileged to see a bit of Europe, United States, Africa, India, Vietnam, Fiji, Cambodia, Australia and a whole lot of our own backyard, New Zealand. But as anyone in the industry would say, there is always more to see!

In my own time I love to be out on the water either boating or water skiing and have just learned to snow ski in the last couple of years. As a family we love adventuring together and being a part of our local church community.
